# Choosing a course

There is a lot of information out there so while you are choosing a subject keep these things in mind:

## **Entry requirements**

These will vary from course to course.

## **Course content**

Always check the modules on the course to make sure you get to study topics that interest you.

## **Teaching method**

What suits you the most: independent study, lectures, seminars?

## **Assessment types**

Do you do best in coursework, practical work or exams? Also does the course provide certifications you need?

## **Entry Requirements**

Universities publish their typical entry requirements. Some universities will also have contextual offer which are lower requirements depending on the student's background, skills or a variety of other reasons.

## **Work experience opportunities and careers help**

Does the uni you are considering have connections with employers, help with getting a job or a placement, study abroad opportunities, sandwich year, interview process training, etc?

# Choosing a university

To make choosing from hundreds of UK universities easier, **consider the following things:**

## **Size**

Some unis only have 1000 students while some might have over 30,000!

## **Location**

How far do you want to be from home? In a big city or smaller town? Up north or down south?

## **Campus or city university?**

Campus universities have all their buildings on one big campus. City universities are spread around a bustling city.

# Finance

When you apply for student finance you claim two different loans<sup>1</sup>;

**A tuition loan of up to £9,250/annum<sup>1</sup> for the cost of your studies** – paid in full to the university. None of the tuition fee has to be paid up front by you.

**A maintenance loan up to £12,010/annum<sup>1</sup> for living costs** – paid in termly instalments to you. This loan is income and circumstance assessed.

**Note:** These numbers change year on year so please check [slc.co.uk](http://slc.co.uk) or [gov.uk](http://gov.uk) for up to date information.
