What is Passport Day?

Passport Day is an interactive inbound visit to Oxford Brookes University, giving students the opportunity to tour the University and take part in activities which explore various aspects of Higher Education. The day aims to raise aspirations for students and increase their awareness of the options available to them in the future. The activities are run with the help of current students, who are available all day to answer any questions or concerns that the year 10 students may have about their next steps.
